Save every potential buyer hundreds of dollars

EYEON is a property information business that provides quality inspection reports and advice on residential properties. We are always independent and **never** have any commercial relationship with agents.

Our **Open Access Inspection Reports** make it much easier, cheaper and quicker for property buyers to carry out their property checks and be ready to make a bid or offer on your property.

How does it work?

- You make an investment in our service and we carry out the appropriate inspection (building and pest inspection for houses or strata records inspection for apartments).
- Our report is made available on our website and linked to www.domain.com.au so buyers can access the report immediately for 75-80% less than the usual cost.
- You are provided with the report as part of your investment.
- We provide information for the selling agent to pass onto potential buyers about our report.
- The selling agent gets real time advice each time a buyer downloads the report.

Benefits

- You are aware of the issues raised in the report and can deal proactively with buyers
- Buyers get easier access to better information about your property which is proven to attract buyers
- Eliminates additional property access by inspectors
- Adds to your property marketing by making it easier for buyers to go from seeing your property to making an offer/bid
- Last minute buyers can still bid as the report is available immediately

Costs

- Houses - \$399 (incl. GST) for up to 3 bedrooms. Slightly higher for larger homes.
- Apartments - \$220 (incl. GST) for most apartments.

Arranging the Inspection?

The selling agent will book the inspection and we will arrange payment directly with you.
